We are committed to delivering person-centered care with integrity, transparency, and accountability, especially in serving individuals with developmental disabilities.

What is Our Corporate Compliance Program?

Our Compliance Program is a structured approach to prevent, detect, and correct any potential violations related to Medicaid services. It supports our mission of providing high-quality care while maintaining the public's trust and meeting regulatory requirements.

Key Components of the Program

- **Written Policies & Procedures:** Clear and accessible guidelines covering billing practices, documentation, conflict of interest, fraud prevention, and staff conduct.
- **Staff Training & Education:** Ongoing training to ensure all employees understand their responsibilities and how to identify and report compliance concerns.
- **Monitoring & Auditing:** Regular internal reviews and audits to monitor potential risks or violations.
- **Reporting Mechanisms:** Confidential and non-retaliatory ways to report suspected fraud, waste, or abuse, including an anonymous hotline.
- **Response & Prevention:** Prompt investigation of issues and implementation of corrective actions to prevent future occurrences.
- **Enforcement & Discipline:** Fair and consistent disciplinary measures for violations of policies or regulations.
