December 23, 2021

Dear Family Members and Friends,

Due to the increased number of positive COVID-19 cases here at Greystone Programs and in New York state, Greystone's Infection Control Committee has set forth and implemented visitation guidelines to ensure the health and well-being of all individuals in our care and Greystone staff.

Prior to your visit, please note the following:

- Visits must be scheduled and approved by a manager in advance.
- All visitors must enter through the designated entry door/disinfecting station.
- Health system screening must be documented prior to entry (questionnaire & temperature reading).
- Face masks are required for the duration of all visits.
- Visitation inside the facility will occur in a designated area.
- Individuals with shared bedrooms may not have visitors in their bedroom. Visits in this instance will occur in a designated common area in order to protect and respect their roommate's health and safety.
- Visitation when possible can take place outside and away from other individuals.
- A six-foot distance must be maintained from other individuals and staff.
- On-site visits will be for a maximum time of 1 hour, between the hours of 9:00am-7:00pm.

Your support in adhering to Greystone's strict safety standards is required for our continued success at combatting COVID-19 in Greystone's residential settings.

If you have any questions, please do not hesitate to contact me at: spryce@greystoneprograms.org. Thank you for your cooperation. We look forward to seeing you.

Respectfully,

Skip Pryce
Chief Executive Officer
Greystone Programs, Inc.
